The logo and name "Eplan" originate from the predecessor product of the Siemens EPLAN E-Vision (Erste Programmier-Logistik-Automatisierung). For the electric p8 the Siemens' changes the appearance of the p11, p14 and p15 (see the Technical data of the p11, p14 and p15). For the p8 the "MACRO" is replaced by a "SIZE" in the menu-tree. As EPLAN was before the eplan 614 we have the first step "Size 9" (without fotografie-memory) and the last "Size 1" (grafische Fotografie).
